

# J-720

## Product Specifications

|                              |                                                          |
|------------------------------|----------------------------------------------------------|
| Product Item                 | Straight Blade Plug                                      |
| Electrical Rating            | 2Pole, 3 Wire Grounding 15A 250V AC                      |
| Configuration                | NEMA 6-15                                                |
| Color                        | White - Black                                            |
| Housing Material             | Nylon - Black                                            |
| Blade Holder Material        | Natural Nylon                                            |
| Terminal Retainer Material   | Polycarbonate - Clear                                    |
| Cord Clamp Material          | Nylon - Black                                            |
| Blade Material               | Brass                                                    |
| Terminal Screw Material      | Brass                                                    |
| Ground Screw Material        | Brass (Green)                                            |
| Flammability                 | UL 94 V-2                                                |
| Wire Size                    | .300" to .650" (16~10 AWG, 7.62~16.5mm)                  |
| Operating Temperatures       | Maximum Continuous 65 °C,<br>Minimum -20 °C (w/o impact) |
| Standards and Certifications | UL/cUL Listed to UL498 File E237606<br>PSE               |
| RoHS Compliant               | Yes                                                      |
