

# **9SINPRO**

# **HPU10F** series

The HPU10F series of AC/DC switching mode power supplies provide 10 Watts of continuous output power . All supplies are UL94V-1 min compliant. All models meet China compulsory product certification. All units are 100% burned in and tested.

RoHS<sub>2</sub>

## **APPROVALS:**

IP22 CB @

## 10W External Medical Grade Power Supply

### **FEATURES:**

- $^{\ast}$  Wide Operating Voltage, 80 to 275 VAC, 47 to 63 Hz
- \* China plug
- \* Single Output
- \* Over Load protection
- \* Support Risk Management Process
- \* Input to Output : 2MOPP
- \* High ESD immunity
- \* Suitable home healthcare environment
- \* Suitable professional healthcare facility
- \* 3 year warranty

#### **APPLICATIONS:**

- \* Breathing Therapy Device
- \* Blood Pressure system
- \* Portable medical device
- \* ECG \ EEG
- \* Medical Tablet

### **GENERAL SPECIFICATION:**

- \* Short Circuit Protection: Auto Recovery
- \* Cooling: Free Air Convection
- \* Flammability Rating: UL94V-1
- \* Protection Classes: Double insulated, Class II
- \* Safety: GB4943.1, GB17625.1, GB9254, IEC60601-1-11

## **Electrical Characteristics:**

| Symbol | Characteristic                        | Min.   | Тур.             | Max. | Unit  |       |  |
|--------|---------------------------------------|--|------------------|------|-------|-------|--|

# **HPU10F** series

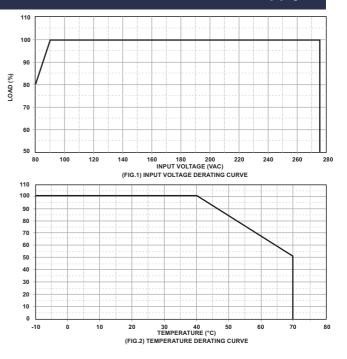

#### **SPECIFICATION NOTE:**

- Output can provide up to peak load when the power supply starts up.
  Continuous staying in more than rated load is not allowed.
- 2. At factory, in 60% rated load condition, each output is checked to be within voltage accuracy.
- 3. Line regulation is defined by changing  $\pm 10\%$  of input voltage from nominal line at rated load.
- 4. Load regulation is defined by changing  $\pm 40\%$  of measured output load from 60% rated load.
- Ripple & noise is measured by using 20MHz bandwidth limited oscilloscope and terminated each output with a 0.47uF capacitor at rated load and nominal line.
- Hold up time is measured from the end of the last charging pulse to the time which the main output drops down to low limit of main output at rated load and nominal line.
- 7. Efficiency is measured at rated load, and nominal line.
- 8. The specifics for testing the energy efficiency of this Series are outlined in a separate document titled "Test Method for Calculating the Energy Efficiency of Single-Voltage Interchangeable AC-DC and AC-AC Power Supplies (August 11, 2004)," which is available on the ENERGY STAR Website.

### **MECHANICAL DIMENSIONS:** (UNIT: mm)

# 10W External Medical Grade Power Supply

#### **OUTPUT CABLE RECOMMEND:**

- 1. Selected output connectors and wire, please refer to Appendix.
- 2. HPU10F-101~105 are required to use AWG#20/4FT output cable.
- 3. HPU10F-106~112 are required to use AWG#24/4FT output cable.
- 4. The regulation and efficiency will be changed by modified output cable.

#### PACKING:

- 1. Net weight: 90g approx.
- 2. Optional output connectors available contact sales for details.
